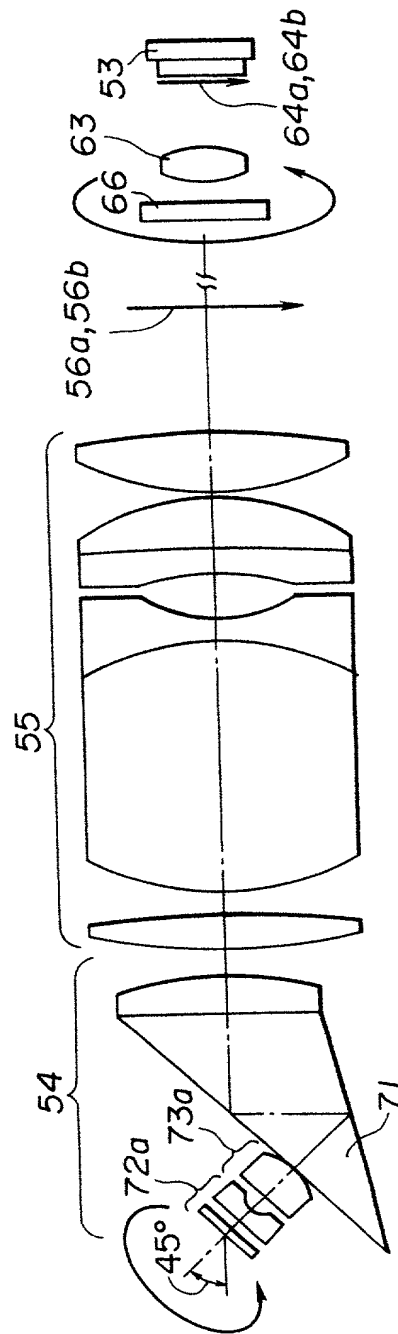

FIG. 30C

FIG. 30C is a perspective view of a rectangular component 86. The component features a series of internal slots 87, including three rectangular slots and one semi-circular slot. A connector 85 is attached to the right side of the component, featuring two circular ports and two rectangular ports.

88

FIG.30D

FIG.30E

FIG.30E shows a perspective view of a rectangular component 89. The component has a series of internal slots or openings along its length. A side view 85 shows the internal features 90, which appear to be a series of curved, interlocking shapes.

FIG.30F

FIG. 30F is a perspective view of a rectangular assembly 81 containing three cylindrical components 91, connected to a larger rectangular block 90. The assembly 81 has a small rectangular protrusion on its left side. The block 90 has two circular features on its top surface and two vertical rectangular slots on its right side.

FIG.30G

FIG. 30G shows a perspective view of a rectangular component 86. It features three internal rectangular openings 92. To the right of component 86 is another component 90, which has a central opening and two side openings.
